in Linkedin

- (+48) 536 705 374
- **GitHub**

I am passionate about **creation** and **personal development**, with a deep love for nature. Experimenting with various crafting techniques and cultivating houseplants enriches both my approach to life and work

I specialize in **React.js**, **JavaScript**, and **Tailwind CSS**, excelling in **UI component development**, **API integration**, and **application optimization**. I am currently expanding my knowledge in **Spring**, enhancing my backend development skills. Ready to bring my skills and enthusiasm to innovative projects. Let's connect to explore how we can work together!

∰ SKILLS

API Integration

Application Optimization

UI Component Development

Team Colaboration

Code Quality

TECHNOLOGY

FRONT-END: React.js, HTML5, CSS3,

JavaScript, TypeScript

BACK-END: Spring, Java

STATE MANAGEMENT: Redux Toolkit,

React Query

TESTS: Jest, React Testing Library

TOOLS: Git, VS Code, npm STYLING: styled-components,

Tailwind CSS

LANGUAGE

EDUCATION

GDANSK UNIVERSITY OF TECHNOLOGY

Engineer of Molecular Biotechnology

2012-2017 No. diploma: 113977

Master of Molecular Biotechnology
2017-2019

No. diploma: 123823

MY SELECTED PROJECTS

FAKE BOOK STORE

A demonstration project of an online bookstore built with JavaScript using the React.js library. Redux Toolkit was used for state management, and data was fetched using the Axios library and Google API. The main goal of the project was to master state management with Redux Toolkit.

https://github.com/Kamisia/fake-book-store

START NOW, SUCCEED

A simple To-do list application built using Redux Toolkit for state management. The task list is stored in the user's browser localStorage, allowing tasks to be preserved even after refreshing the page.

ZEN NAIL ZOON

A sample business card website for a nail salon, allowing users to contact the salon via a contact form. The form validation is handled using the React Hook Form library. The application is written in TypeScript with the React.js library.
